**Livonia, MI ~ October 18, 2019** - The North American Soccer Development Academy (NASDA), North America's premier "Soccer Trip" provider, is pleased to announce that we have joined forces with the IBERCUP. The IBERCUP tournaments are known and respected all over the world. This respect has been earned over the years not only because of the beautiful locations but also because of the incredible competition. Teams from over 100 countries have participated in the IBERCUP tournaments attracting the likes of Real Madrid, Juventus, Werder Bremen, Gremio, Liverpool, Barcelona, Flamengo, Manchester City, Benfica, Athletic Madrid, Sporting Lisbon, PSG and many more.

Through this partnership, NASDA will now be able to provide teams and players guaranteed acceptance to all IBERCUP tournaments around the world. "This is so cool," said Dennis Brose, Director of NASDA. "I remember going on trips when I was younger. They had such an impact on me as a player. It made me believe that I can achieve my dream. I'm so thankful we get to provide these experiences to the next generation". American teams and players will have the opportunity to compete against some of the world's best academy programs.

NASDA has been participating in the IBERCUP tournaments for the last three years. "The competition and service has always exceeded our expectations," said Dennis. "This is the type of atmosphere our players here in the United States need to be exposed to. Playing against peers that play at world famous academies is pretty much non-existent in the United States therefore cannot be duplicated stateside. That's why we go. Our younger players in the United States deserve that opportunity".

"We are excited to partner with NASDA," said Filipe Rodrigues, Founder & Director of the IBERCUP tournaments. "NASDA has been coming for three years now. It is clear they bring quality teams that compete very well. They have made it to the finals numerous times. We know that there is a lot of talent in the United States and every year we are pleasantly surprised. You will only know how good you really are if you compete against some of the best in the world. We can provide that platform".
